

Fundamentals of Flying

This course forms part of the ABTT Bronze Award but may be taken as a one off stand alone course. Access to a theatre fly floor is essential.

The course objectives are to teach the safe handling of counterweight sets and hemp and will cover; terminology, parts of a counterweight set, loading and unloading, operating, first line maintenance, single and double purchase systems, putting knots into practice, tying off at a pin rail, spotting and other methods of hanging. Candidates will receive an ABTT CPD certificate and the current ABTT Code of Practice on Theatre Flying.
