Day One: Risk Management 1

The module takes place in the workplace environment in order to give candidates a clear grasp of current requirements.

The module also examines roles in emergency/disaster plans, including the use of fire fighting and other emergency equipment: reporting on accidents and workplace hazards; the objectives of the accident investigation procedure; how to contribute to safety committee meetings; the benefits of good housekeeping and how to achieve acceptable standards and general practices for both on and off the job safety.

The module examines: attitudes towards safety; human behaviour; managing real risks responsibly, taking a positive health and safety approach and complying with the Construction (Design and Management) Regulations.
