

Alexandra Palace, 7th - 8th June 2023

ABTT Theatre Show 2023 Activity Booking Form

The Event: ABTT Theatre Show Practical Workshops.

The ABTT Workshops, Education Alley and the Careers and Professional Development Hub – have been devised to assist you in your moving in to or developing your career in the Theatre industry. The workshops below will give you taster sessions of real-life activities from some backstage professions. The CV Workshops and 1-1 Booths give you a chance to speak with a current professional and ask those questions you've always wanted answers to. You can learn about pathways into and through the Industry, training opportunities, apprenticeships, courses and more so you can wrap your head around the best next steps for you!

Contact name:

Contact email:

Contact number:

Please email completed form to admin@abtt.org.uk to reserve your space

Date of attendance:

Wednesday 7th June 2023

Thursday 8th June 2023

Both days

I would like to attend the following activities at the ABTT Theatre Show:

Ask Me Anything booths: Meet with an Industry Specialist and get your questions answered! Whether you are new to the industry or not, come speak with professionals about pathways into and through the Industry, opportunities for training, apprenticeships, career opportunities, courses and more - so you can wrap your head around the best next steps for you!

ABTT CV Clinic: Get tips, tricks and pointers to make your CV stand out! These industry professionals can let you know what THEY look for when they are hiring so you can make sure your CV makes an impact!

Workshop: Do you know your knots? A hands-on demonstration and practice session to teach key knots and their uses in backstage roles! Come learn a new skill or check your knowledge in this practical workshop!

Workshop: Find the faults! How good are you at spotting faults which could cause fire, injury, or fatality! Join us at this hands-on workshop to learn new or check on your current skills at spotting issues in electrics & ladders!

Workshop: Manual Handling Unloading the truck, moving Steeldeck, carrying stage weights? Don't miss out on this hands-on workshop to check on your manual handling skills to keep you and your teams injury free!

Workshop: Drapes; tips and tricks! Theatrical Drapes: from masking, to painted clothes are extensively used on all kinds of stages. Come and learn how to handle them, hang them and store them so they're ready for every show! Head to our hands-on workshop to hone your key skills in cloth folding & tying on to flying bars!

Talks: Know your software

Autocad In this seminar David Ripley, AutoCAD expert, Tutor and Author of AutoCAD - A Handbook for Theatre reviews AutoCAD 2024 and some of the new or updated tools within it of particular use to those putting on productions.

***Vectorworks** - Tom White, Industry Specialist, explores how to create 2D plans and construction drawings from detailed 3D models, including schematic views of vertical lighting positions and other useful theatre production workflows.

Tom and David will also introduce the updated ABTT AutoCAD for Performance Course and launch the exciting new ABTT Vectorworks online training course.

*Vectorworks Session only running on 8th June between 2pm - 3.30pm.

Limited spaces are available.*
