

ASSOCIATION OF BRITISH THEATRE TECHNICIANS

Wigs, Hair & Make-up Awards 2024

The ABTT supports all those who contribute to the presentation of live events and has been rewarding and shaping excellence in technical theatre since 1978. With a selection of peer assessed award categories, its community of specialists seek to acknowledge achievement, enable excellence and promote the evolution and diversity of the production crafts and disciplines. Here are last year's [winners](#).

Historically, the ABTT Awards have showcased what might best be referred to as 'hard' technologies; and yes you have guessed it...we are about to claim our space in a bid to officially stand as equals.

We wish to create a long overdue platform for the nation-wide recognition of WHAM as an awarded discipline and acknowledge and celebrate the amazing talent and imagination that exists in our discipline so that it may have the opportunity to be placed centre stage. **Awards for us, designed by us.**

(This work is taking place in partnership with our costume colleagues from ABTT Costume in Theatre and Entertainment Arts (CITEA), who are developing an awards thread parallel to us. If this interests you or you know someone that it would, you can find more information [here](#).)

We hope you are as excited as we are about shaping this important new initiative and that you would like to join us in the celebration of excellence in our discipline.

Membership to the ABTT is optional.

[Complete the Questionnaire here](#), Closing: 25th January 2024
